

## VALVE MANIFOLD BOX (VMB)

Shown: VMB-06-PV-LD

Shown: Customized VMB-04-PF-ACV

Shown: VMB-05-6S-LD

Wastech Valve Manifold Boxes are designed for liquid chemical distribution and provide added safety, organization, and security. They are constructed of durable polypropylene plastic and include a hinged clear PVC door for access. Wastech can design and fabricate a valve box in any geometry to suit any need. Custom configurations are available, call or email Sales.

### Standard Features

- All welded polypropylene construction
- Large hinged clear PVC door for visibility and access
- Isolation ball valves for each manifold branch
- Cabinet drain connection
- Cabinet vent connection
- PVC, CPVC, PP, PVDF, PFA, and stainless steel piping and tubing materials
- Double containment connections in cabinet walls for each valve inlet or outlet

### Optional Features

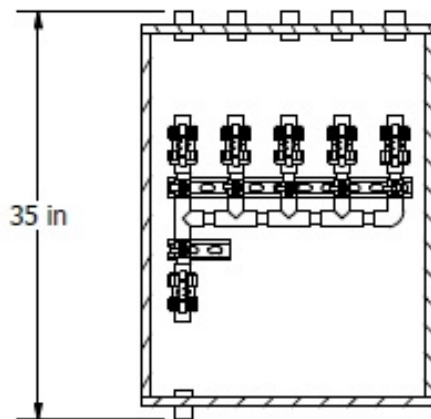

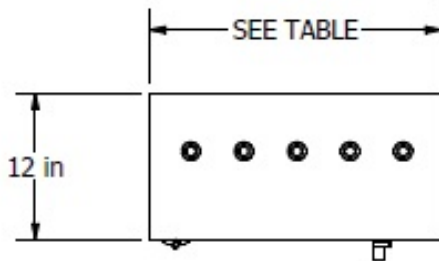

- FM4910 rated cabinet materials
- Leak detection with local indicator panel
- Automatic control valves to stop chemical distribution
